

12th Annual RAW Artists' Network Members' Show How green is the artwork you buy? Do today's artists repurpose and recycle their materials to minimize their artistic footprint? Can we as artists turn this process of Creation into reCreation and find ways to incorporate the old into the new? This year's RAW Members' Theme Show challenges our artists to explore beyond their familiar toolbox to experiment with a green theme of recycling as inspiration - using recycled, restored, reconstructed, and reclaimed materials in the content and production of their pieces.
